- Club or any responsible member of the club does not organize dives for me! I go diving together with a group where everyone is responsible for himself, check equipment he/she brings and agrees on his/her own limits for the dive
- I am aware of remoteness of the place, and I know that the use of compression chamber is very limited (read - impossible, since it is located in Ny-Ålesund and not meant for sport divers, and not operated all year around and requires a helicopter transportation/weather)
- I know that club have emergency oxygen kit, and I am responsible for checking whether it has been brought to the diving event
- I guarantee appropriate treatment of equipment I rent and fresh water rinsing after each dive
